

Vinyl Decal Application Instructions

1. Clean surface where you intend to put Decal.
2. (Important). "Slowly Take Your Time Following The Instructions".
3. Take Decal Lettering Face Up on to Flat Hard Surface...like table top.
4. Next on a hard Surface...Rub The Lettering only so The Lettering only Adheres to the Clear Surface of the decal...press hard.
5. Next ..."Just Barely Open "Slowly Separate the 2 half's "around 1/4th inch" ...STOP.
6. The Lettering is designed to stick to the Clear Back Side of the plastic...now Just a little...Very Slowly Peel back the 2 Surfaces Making sure the Decal and Lettering Stays on the Clear back side of surface...By SLOWLY Dabbing The Surface up and down till the Decal and Lettering Sticks to the Clear Surface only..."Do Not" Try to use Your Fingers to hold down Decal or Lettering...It Will Not Work...I Used a Steak Knife and it worked.
7. After separating you should have the Decal and all the Lettering on the back side Clear Surface...Your in the home stretch now...
8. Where You Already Cleaned a spot for your Decal... place the Sticky Surface of the Clear side in place where you want it...Apply evenly across the area carefully keeping the Decal and all the Letters Straight with No Air Pockets...Once in place rub out air pockets and press on Decal and lettering.
9. Slowly Peel Clear plastic off around Decal...
10. Your Decal / Lettering and Logo should be in place.
